

Refraction chess set

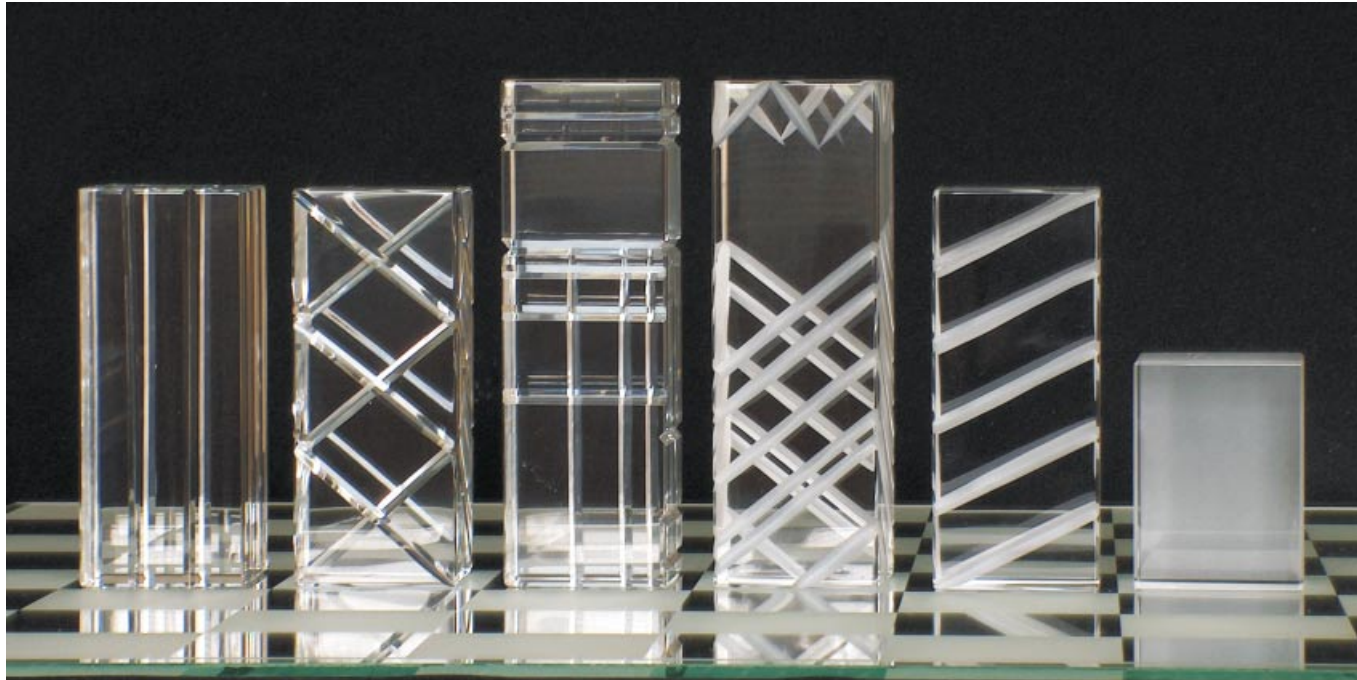

The beauty of crystal glass comes to life with this fully hand-crafted set, produced in limited quantity of 10 sets and designed by Eva Starková (Sasínková), who also designed the Quadrant crystal chess set.

Thanks to its clarity, quadratic shape and board of black glass, the chess game will lighten up every space.

Refraction chess set

The figures are differentiated by deep hand carved cuts, made by master cutter Jiří Neužil, that are either matt (frosted) or manually polished (shiny) to make a clear distinction between the two sides.

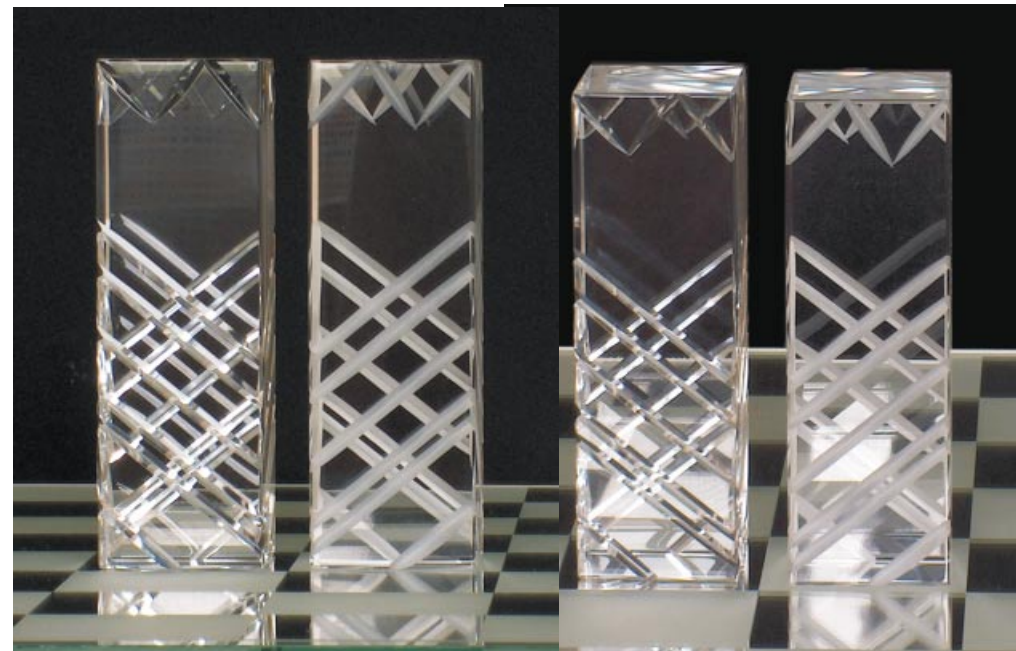

Look through the game pieces and you will be astonished by the extraordinary view when the designs on the opposing sides blend together.
